<P> A fully automated modern Library & Information Centre (LIC) is on its way to
becoming an outstanding learning resource centre, catering to the students', faculty's, and
researchers' ever-increasing and uncompromising information and intellectual needs.

```

A balanced programme is being followed for the development of the collection of hard copy, audio/video, CD-ROM, and other electronic forms of documents. The LIC houses one of the most comprehensive collections of current engineering and management publications.

The FISAT Library and Information Division provides services to the FISAT Community and Staff from various departments of the college and neighbouring institutions. The College has a central library as well as MBA and MCA reference libraries. The Central Library is housed in a three-story structure with separate reference and stack rooms.

The libraries are completely automated, with over 81,000 volumes of text books and reference books in over 19610 titles. The library subscribes to 235 technical print journals and magazines, including 65 IEEE publications, and more than 15000 e-journals. There are over 3000 DVDs and CD-ROMs in the digital collection. Online Public Access Catalogue (OPAC) is a component of FISAT INTRANET that allows members to search, reserve, or check the status of any book in the library from anywhere in the world via the FISAT website www.fisat.ac.in.

For library transactions, smart cards are used. The library houses a reprographic centre. DSpace's digital library allows library users to access the library's digital archive. The library also offers a 'Book Bank Scheme,' in which members are given one standard book in each subject for the duration of the semester..

facilities.html

The college master plan envisages a three storeyed main building consisting of a central block with college office, central library, main computer centre, office of the principal, conference hall, seminar halls, etc housed in it; and two major side building complexes housing all the class rooms, drawing halls, tutorial halls, departmental offices, libraries and computer centers.

FISAT Library is the soul of the institution and it acquires, processes, preserves and disseminates information to the user community with the motto of focus on excellence. It has an extensive collection of books, reference materials for satisfying the academic and research

needs of the students and faculty. FISAT Library and Information Centre consists of a reference section, circulation section and periodical section. The library has automated all its activities to provide an effective and wide range of academic resources such as books, journals, online databases.

Laboratory building complexes, boys and girls hostels, staff quarters, college canteen, stadium with all modern facilities for sports and games, gymnasium, Internet Cafe, language lab, road network, electric power generating system etc are available. FISAT gives paramount importance to the safe transport of students and staff to the institution and back home. To ensure safe travel, the institution has its own fleet of buses. An efficient transportation system is operating in FISAT with a fleet of 30 buses plying on various routes of the city, thus providing easy access even from the remote areas of the district. The bus facility is available to the day scholar students on all working days. Hostel students also can avail the bus facility for going home on weekends/holidays by availing the bus coupon facility. The laboratory and workshop building complexes for Electrical Engg, Electronics Engg, Computer Engg, Instrumentation Engg, Civil & Mechanical Engg have all been constructed according to prevailing standards and are fully operational. Three large building complexes have been built outside the main building for the above purposes. An auditorium with seating capacity for 800 is in use with high-tech audio equipments and stage arrangements. Air-conditioned Seminar halls with LCD projector are available for conducting various technical programs.

intro.html

The Federal Institute of Science and Technology (FISAT) is a self-financing private engineering college established and promoted by the Federal Bank Officers' Association Educational Society (FBOAES). The FBOAES is an initiative of the Federal Bank Officers' Association (FBOA), the sole representative body of all Federal Bank officers. Federal Institute of Science and Technology (FISAT) occupies a unique position in South India's

Professional Education Sector. FISAT has been designed and developed to become a “Centre of Excellence” in professional education, with the motto “Focus on Excellence.” Established in 2002, the college has carved a niche for itself in the education sector, as evidenced by its students’ outstanding performance in academics, placements, and extra-curricular and co-curricular activities. FISAT has launched an ambitious plan to improve the quality and value of education while also developing high-quality individuals. The institution is accredited by the National Assessment and Accreditation Council (NAAC) with an ‘A’ grade. The National Board of Accreditation (NBA) has accredited five B.Tech programmes. The institution is also ISO 9001:2015 certified. FISAT is located in Mookannoor, near Angamaly in Ernakulam District, Kerala, the birthplace of The Federal Bank Ltd. founder, Late K P Hormis, and the campus is named “Hormis Nagar” in his honour. FISAT is affiliated with APJ Abdul Kalam Technological University (KTU) and is approved by the All India Council for Technical Education (AICTE), New Delhi. FISAT offers seven B.Tech engineering programmes, an MBA programme (with specialisations in Finance, Marketing, Human Resource Management, Information System, Production & Operations Management, and International Business), an MCA programme, five M.Tech programmes and PhD programmes.

<title> Pulp Fiction </title>
<body>
<h1 align="center"style="color:blue;">PULP FICTION</h1>
<p style="font-family: sans-serif; color: red;">
```

Pulp Fiction is a 1994 American crime film written and directed by Quentin Tarantino, who conceived it with Roger Avary. Starring John Travolta, Samuel L. Jackson, Bruce Willis, Tim Roth, Ving Rhames, and Uma Thurman, it tells several stories of crime in Los Angeles. The

title refers to the pulp magazines and hardboiled crime novels popular during the mid-20th century, known for their graphic violence and punchy dialogue. Tarantino wrote Pulp Fiction in 1992 and 1993, incorporating scenes that Avarny originally wrote for True Romance (1993). Its plot occurs out of chronological order. The film is also self-referential from its opening moments, beginning with a title card that gives two dictionary definitions of "pulp". Considerable screen time is devoted to monologues and casual conversations with eclectic dialogue revealing each character's perspectives on several subjects, and the film features an ironic combination of humor and strong violence. TriStar Pictures reportedly turned down the script as "too demented". Miramax co-chairman Harvey Weinstein was enthralled, however, and the film became the first that Miramax fully financed. Pulp Fiction won the Palme d'Or at the 1994 Cannes Film Festival, and was a major critical and commercial success. It was nominated for seven awards at the 67th Academy Awards, including Best Picture, and won Best Original Screenplay; it earned Travolta, Jackson, and Thurman Academy Award nominations and boosted their careers. Its development, marketing, distribution, and profitability had a sweeping effect on independent cinema. Pulp Fiction is widely regarded as Tarantino's masterpiece, with particular praise for its screenwriting. The self-reflexivity, unconventional structure, and extensive homage and pastiche have led critics to describe it as a touchstone of postmodern film. It is often considered a cultural watershed, influencing films and other media that adopted elements of its style. The cast was also widely praised, with Travolta, Thurman, and Jackson earning particular acclaim. In 2008, Entertainment Weekly named it the best film since 1983 and it has appeared on many critics' lists of the greatest films ever made. In 2013, Pulp Fiction was selected for preservation in the United States National Film Registry by the Library of Congress as "culturally, historically, or aesthetically significant".

<body>

DJANGO UNCHAINED

Django Unchained (/ˈdʒæŋɡoo/) is a 2012 American revisionist Western[5] film written and directed by Quentin Tarantino, starring Jamie Foxx, Christoph Waltz, Leonardo DiCaprio, Kerry Washington, and Samuel L. Jackson, with Walton Goggins, Dennis Christopher, James Remar, Michael Parks, and Don Johnson in supporting roles. Set in the Old West and Antebellum South, it is a highly stylized, heavily revisionist tribute to Spaghetti Westerns, in particular the 1966 Italian film Django by Sergio Corbucci (the star of which, Franco Nero, has a cameo appearance). The story follows a black slave who trains under a German bounty hunter, with the ultimate goal of reuniting with his long-lost wife. Development of Django Unchained began in 2007 when Tarantino was writing a book on Corbucci. By April 2011, Tarantino sent his final draft of the script to The Weinstein Company. Casting began in the summer of 2011, with Michael K. Williams and Will Smith being considered for the role of the title character before Foxx was cast. Principal photography took place from November 2011 to March 2012 in California, Wyoming, and Louisiana. The premiere of Django Unchained took place at the Ziegfeld Theatre in New York City on December 11, 2012, and was theatrically released on December 25, 2012, in the United States, grossing over \$425 million worldwide against its \$100 million budget, becoming Tarantino's highest-grossing movie to date. The film received acclaim from critics, mainly for Waltz's performance and Tarantino's direction and screenplay, though the film's usage of the word "nigger" and its depiction of violence drew controversy. The film received numerous awards and nominations, winning two out of five nominations at the 85th Academy Awards. Waltz won several awards for his performance, among them Best Supporting Actor at the Academy Awards, Golden Globes and BAFTAs. For his screenplay, Tarantino won an Academy Award, a Golden Globe, and a BAFTA.

<body>

<h1>ONCE UPON A TIME IN HOLLYWOOD</h1>

<p>

Once Upon a Time in Hollywood[a] is a 2019 American comedy drama film written and directed by Quentin Tarantino. Produced by Columbia Pictures, Bona Film Group, Heyday Films, and Visiona Romantica and distributed by Sony Pictures Releasing, it is a co-

production between the United States, United Kingdom, and China. It features a large ensemble cast led by Leonardo DiCaprio, Brad Pitt, and Margot Robbie. Set in 1969 Los Angeles, the film follows a fading actor and his stunt double as they navigate the rapidly changing film industry, with the looming threat of the Tate murders hanging overhead. It features "multiple storylines in a modern fairy tale tribute to the final moments of Hollywood's golden age." Announced in July 2017, it is the first Tarantino film not to involve Bob and Harvey Weinstein, as Tarantino ended his partnership with the brothers following the sexual abuse allegations against the latter. After a bidding war, the film was distributed by Sony Pictures, which met Tarantino's demands including final cut privilege. Pitt, DiCaprio, Robbie, Zoë Bell, Kurt Russell, and others joined the cast between January and June 2018. Principal photography lasted from June through November around Los Angeles. Once Upon a Time in Hollywood is the final film to feature Luke Perry, who died on March 4, 2019, and it is dedicated to his memory. Once Upon a Time in Hollywood premiered at the 2019 Cannes Film Festival on May 21, 2019, and was theatrically released in the United States on July 26, 2019 and in the United Kingdom on August 14. The film grossed \$374 million worldwide and received praise from critics for Tarantino's direction and screenplay, the performances (particularly from DiCaprio and Pitt), cinematography, soundtrack, sound design, costume design, and production values. Organizations such as the National Board of Review and the American Film Institute named Once Upon a Time in Hollywood as one of the top ten films of 2019. The film was nominated for ten awards at the 92nd Academy Awards, winning two, and received numerous other accolades. A novelization of the same name, written by Tarantino in his debut as an author, was published on June 29, 2021. A television series titled Bounty Law, based on a TV program depicted in the film, is currently being developed by Tarantino..
